

**THE NATIONAL PANCREAS FOUNDATION
ACADEMIC CENTER OF EXCELLENCE**

Pancreatic Cancer Application

To be considered an Academic Center of Excellence, please complete and submit the Clinical Center of Excellence application together. If your answer is more than 2-3 lines in the box, please add it to a Word document.

Training and Education (Please check box if all criteria are met and provide additional info below)

- ACGME-approved General Surgery Residency.
- Surgical Oncology or Pancreaticobiliary Surgery Fellowship. (Desirable)
- ACGME-approved Radiation Oncology Residency.
- ACGME-approved Medical Oncology Fellowship.

For any criteria not met, please provide additional comments. For answers that are more than 4-5 lines, please include it in a Word document.

Research and Clinical Trials (Please check box if all criteria are met and provide additional info below)

- IRB-approved studies related to pancreatic cancer.
- Participation in multi-institution clinical studies.
- IRB-approved single center biorepository, or participation in multi-site biorepository.
- Ongoing laboratory and/or clinical research productivity in the field of pancreatic cancer, as documented by consistent and sustained peer-reviewed publications and/or research funding.
- Mechanism for attainment, review and action of NGS or other molecular profiling results to support clinical trial eligibility determination.
- Evidence of trainees participating in research.

Please provide URL for clinical trials (to be add to the NPF website) and additional comments if any criteria is not met. For answers that are more than 4-5 lines, please include it in a Word document.

Reputation (Please check box if this criteria is met)

- Evidence of regional or national reputation for management of pancreatic cancer. This can include development and participation in educational meetings, participation in guideline or consensus development, or authorship on white papers or guidelines.

Please provide publications that demonstrate this reputation, and/or a list of pancreatic-focused meetings that the institution sponsors or participates in. For answers that are more than 4-5 lines, please include it in a Word document.
